

"Tap The Melody" — the top iPhone and iPad app for child rhythm development.

A new game from Apps Ministry is created to develop sense of rhythm and musicality in children. With this [musical app](#) every child can feel like a real musician!

Kids can discover the sound of different instruments while being able to create their own masterpiece by changing the tempo and rhythm of the music.

["Tap The Melody"](#) features:

- Four musical instruments: piano, guitar, flute and accordion
- Eight tunes by world famous composers
- The ability to experiment with rhythm and sound.
- Eye-captivating animations for each melody.

With ["Tap The Melody"](#) your kid will feel like a real musician by being able to switch out the melodies, background music or instrument at any time. It's a great way to introduce a child with a variety of instruments, musicality and sense of rhythm.

"Tap The Melody" is available [at App Store](#). Enjoy the world of music with your child!
